A wicked problem is a problem that is difficult or impossible to solve because of incomplete, contradictory, and changing requirements that are often difficult to recognize. The use of the term "wicked" here has come to denote resistance to resolution, rather than evil. Another definition is "a problem whose social complexity means that it has no determinable stopping point".

The first thing you should be aware of if you are trying to kill yourself is, the odds are against you. Yes, I'll say that again - the odds are against you. According to the American Association of Suicidology (based on a SAMHSA study) 1, there are 25 attempts at suicide for every one success. In young people (aged 15 - 24), the odds are between 100 and 200 to 1 against.
