

newscasting in electronic media pdf

News is information about current events. This may be provided through many different media: word of mouth, printing, postal systems, broadcasting, electronic communication, or through the testimony of observers and witnesses to events.. Common topics for news reports include war, government, politics, education, health, the environment, economy, business, fashion, and entertainment, as well ...

News - Wikipedia

News broadcasting is the medium of broadcasting of various news events and other information via television, radio, or internet in the field of broadcast journalism. The content is usually either produced locally in a radio studio or television studio newsroom, or by a broadcast network. It may also include additional material such as sports coverage weather forecasts, traffic reports ...
