Renew Your National EMS Certification. Your National EMS Certification is too valuable to let expire.

## **National Registry of Emergency Medical Technicians**

Defibrillation is a treatment for life-threatening cardiac dysrhythmias, specifically ventricular fibrillation (VF) and non-perfusing ventricular tachycardia (VT). A defibrillator delivers a dose of electric current (often called a countershock) to the heart. Although not fully understood, this would depolarize a large amount of the heart muscle, ending the dysrhythmia.

## **Defibrillation - Wikipedia**

A stroke is also called a cerebrovascular accident (CVA) or a brain attack is a reduction or an interruption of the flow of blood through an artery to one or more areas of the brain within the territory supplied by that

artery. The end result is varying degrees of neurological and/or cognitive malfunction lasting longer than 24 hours. A very severe stroke can cause sudden death.
